- Enerpac hollow plunger Single-acting cylinders provide versatility in testing, maintenance and tensioning applications.
- Hollow plunger design allows for both pull and push forces
- Cylinders are nickel-plated, floating centre tube on models over 20 tons increases product life
- Baked enamel finish for increased corrosion resistance
- **RCH-120, RCH121 and RCH1211 cylinders include AR-630 1/4" coupler. All other models feature CR-400 3/8" coupler.**
